BELGIAN UNREST CONTINUES

Kennedy Seeks More Funds For Envoys

President-Elect Hopes To Avoid Appointment Of Wealthy to Posts

WASHINGTON (AP) — Unless President-elect John F. Kennedy can convince Congress that American ambassadors need more expensive money, he'll have to fill some top diplomatic posts from the ranks of the wealthy.

Kennedy started a move in the direction of more expensive money this week when he had an amicable discussion of the problem at Palm Beach with Rep. John Rooney, D-N.Y. Rooney has referred to ambassadorial appointments as "boozie allowances. As chairman of a House Appropriations subcommittee Rooney has fought for years against increasing them.

Rooney reported that the president-elect's father, Joseph Kennedy, felt obliged to spend about \$100,000 a year of his own money while he was ambassador to Great Britain. Such sums are not usually found in the bank accounts of career diplomats of the United States," it added.

In addition to the department store blast, bombs exploded in a variety store, a main power station and a plush night club in Havana. There was extensive damage to the club, once a favorite with American tourists.

Unexploded bombs were also reported found at a gas plant and another variety store.

A Camaguey-Havana passenger train collided with another train at a crossing in Camaguey Province, injuring more than 50 persons. Officials blamed counter-revolutionaries.

Following the bombings, Castro militiamen, police and bystanders marched to Havana's central park shouting, "Saboteurs to the execution wall."

A collection was taken to aid the injured, who included five children.

All the injured were victims of a bomb that exploded in a women's rest room adjoining a crowded cafeteria in the Fogar store, which the government expropriated from private Cuban interests.

A second bomb exploded in a small variety store in Havana's shopping district. No injuries were reported.

Another bomb went off in the power station in Tallapiedra, in east Havana. Damage was slight and no one was hurt.

Reliable sources said the power station was evacuated and that two more bombs were found after a two-hour search.

Night bombings by anti-Castro elements have been frequent in recent weeks, but the daylight blasts were a new development in the mounting strife.

Cleveland Jobless Total Slated To Be Boosted

CLEVELAND (AP)—The number of jobless steelworkers in the Cleveland area whose supplementary unemployment benefits have been reduced will go above 4,000 next week when Jones & Laughlin joins U. S. Steel and Republic Steel in making cuts.

Earlier this month Republic and U. S. Steel cut SUB payments for 3,500 workers to 75 per cent, and subsequently U. S. Steel slashed further to 67 1/2 per cent. Jones & Laughlin's 25 per cent cut in SUB pay will affect an additional 600 to 80 workers.

Cold War Blamed on Human Nature, Idea that Big Fist Assures Security

NEW YORK (AP)—There is a way to avoid H-bomb war horrors, a psychologist declared today. He blamed the cold war mainly on human nature and the idea that mighty defenses assure security.

The way out lies through realizing this, and then seeking new ideas, said Dr. Charles E. Osgood of the University of Illinois. He spoke after a famous British scientist-novelist, Sir Charles P. Snow, had predicted that within, at most, six years Pei China and some other countries would have nuclear bombs.

"Within, at most, 10 years, some of those bombs are going off," unless scientists and others act to prevent it, Sir Charles said.

Dr. Ralph Lapp, physicist of Arlington, Va., presented private estimates of this country's tremendous nuclear power.

He said he figures the United States now has nuclear weapons equal to 50,000 of the atom bombs which destroyed Hiroshima, and could produce the equivalent of 30,000 more in a half dozen years.

The scientists addressed sessions of the American Association

John Stevenson Is Named County's Outstanding Young Farmer for 1960

John A. Stevenson, Route 2, was named Pickaway County's Most Outstanding Young Farmer yesterday.

Circleville Junior Chamber of Commerce sponsored the project locally in connection with a statewide "outstanding young farmer search." Stevenson was selected after many hours of reviewing nomination forms. Deadline for nominations was December 20.

The 27-year-old farmer is the son of Mr. and Mrs. J. B. Stevenson, Route 2. He is a 1951 graduate of Circleville High School and has a BS degree in Agriculture from Ohio State University.

John and his wife, the former Linda Given, have two children Susan, 2, and Sharon, three-weeks-old.

THE county's most outstanding young farmer spent three years in the US Air Force, with overseas duty in Newfoundland.

He has lived on a farm all his life. He has been farming on his own since discharged from the USAF in November, 1958.

In addition to his never-ending farm duties, Stevenson is an active member of the Farm Bureau, Pickaway County Cattle Feeders Association, County Swine Improvement Assn., has been a discussion leader for the Farm Bureau Advisory Council and advisor of the Explorer Air Scouts.

He served as president and treasurer of his 4-H Club and was active and held offices in high school organizations.

Stevenson started farming on his own after his discharge from the service, but has been farming with his parents all his life except for the time spent in school and his three-year stretch in the service.

As a 4-H member he began his career with livestock given to him by his father. The animals were prepared for 4-H projects and then sold. The proceeds were invested in more livestock and machinery.

Among the labor-saving devices owned by the young farmer are a tractor, plow, bulk line and fertilizer truck, hog equipment, hay conditioner, two-way radio and a share in other farm equipment.

Stevenson operates 564 acres as a partner and has 140 acres on route 2 which he operates on shares.

He has had a 67 per cent increase in cash and savings since he began farming two years ago and a 31 per cent increase in buildings and equipment.

Many things were taken into consideration in the selection of Stevenson as the Outstanding Young Farmer. Nominees were closely screened by a Jaycees committee composed of Frank Bowling Jr., Don Hill, Paul Marshall, Jim Mace, Nelson Stevens and Lester Smith.

Stevenson will be eligible for state-wide outstanding farmer competition in January and will be a special guest at a Junior Chamber of Commerce Awards Dinner January 30.

Christmas Lasts Days For Girl in Arkansas

VIOLA, Ark. (AP)—Christmas lasted several days this year for Coleta Burns, 11, the Arkansas farm girl who wrote New York City police asking if Santa Claus had died.

Coleta and her six brothers and sisters have gotten a piano, an estimated 250 cards and letters and enough packages "to fill a pickup truck" postmaster Jim Felts reported Tuesday.

Air Force, Navy Secretaries Picked for Kennedy Regime

PALM BEACH, Fla. (AP) — President-elect John F. Kennedy today tapped Eugene Zuckert to be secretary of the Air Force. He was assistant secretary in the Truman administration and also has served as a member of the Atomic Energy Commission.

Announcement of the selection of Zuckert, 49, came after Kennedy had picked John B. Connally-Texas lawyer, decorated Navy veteran and long-time political associate of Vice President-elect Lyndon B. Johnson—to be secretary of the Navy in the new administration.

Zuckert and Connally, 43, are Democrats.

Kennedy headquarters also announced that the President-elect will confer at his Atlantic shore home here Thursday with Sen. J. William Fulbright, D-Ark., chairman of the Senate Foreign Relations Committee.

The Zuckert and Connally appointments were announced by Kennedy after consultation with the man he has named to be secretary of defense, Robert S. McNamara, who is resigning as president of the Ford Motor Co.

He was a member of the Atomic Energy Commission from 1952 to 1954 under appointment by President Harry S. Truman.

He was a lieutenant junior grade in the Navy in 1944-45 and afterward was an assistant to Stuart Symington, now U. S. senator from Missouri and then chief of the Surplus Property Administration. Zuckert was assistant secretary of the Air Force while Symington, a Democrat, was civilian head of that service.

Since retirement from the Atomic Energy Commission in 1954 Zuckert has been in private law practice in Washington.

Kennedy's selection of Connally,

Fort Worth, Tex., attorney, was announced Tuesday night.

Connally joined the Navy in 1941 as an ensign. He was assigned first to the office of Secretary of the Navy James Forrestal and later to combat duty in the Pacific. He was discharged as a lieutenant commander in 1945 after being awarded the Bronze Star and the Legion of Merit.

Connally received his law degree from the University of Texas in 1941, and was admitted to the Texas bar at the age of 21.

Fire Official Calls Carrier's Status Sloppy

NEW YORK (AP)—City Fire Commissioner Edward Cavanagh Jr. says the aircraft carrier Constellation was in such sloppy condition that he would have "ordered work stopped and the premises cleaned up if it had been a civilian project."

Officers at a naval court of inquiry looking into the disastrous Dec. 19 carrier fire listened for 2 1/2 hours as Cavanagh criticized Navy safety procedures. An estimated \$75 million damage was done to the Constellation and 49 persons died in the fire at the Brooklyn Navy Yard.

"Messy, deplorable and sloppy" were Cavanagh's words to characterize the housekeeping aboard the ship. Evidence of this, he said, were 42 minor fires that preceded the disaster.

"If this had been a civilian project under our jurisdiction we would have vacated this project as imminently perilous to life, he said.

He called the ship a "fully loaded bomb which needed only ignition" and said he was surprised the tragedy hadn't occurred earlier.

Previous witnesses testified that the housekeeping and fire-prevention practices on the Constellation were better than average for Navy ships.

Some Ohio Highways Still Slippery in Spots

COLUMBUS, Ohio (AP) — The State Highway Department reported today that primary highways are slippery in spots in the vicinity of Jefferson, Steubenville, Marietta and McArthur. Secondary roads have some slippery spots in the extreme northern and southeast portions. Balance of the state's highways, including the Ohio Turnpike, are listed as normal.

Red Gunfire Hits U.S. Plane

Military Aide in Laos Hints Soviet Involved

VIENTIANE, Laos (AP) — An unarmed U.S. plane was hit by gunfire while observing Soviet air drops to Pathet Lao rebels Tuesday, the American military attaché's office said today.

The gunfire may have come from a Soviet plane. No one was injured aboard the twin-engine plane, belonging to the U.S. Air Force attaché in Saigon, South Viet Nam. The plane carried Maj. Armand Riser, assistant military attaché and a crew of four.

The plane, hit in the left engine and fuselage, made it back to Vientiane.

The plane was making a reconnaissance flight of Soviet drops to the pro-Communist rebels at Vangvieng, 65 miles north of Vientiane at the request of the Laotian government, the attaché's office said.

Riser, who was making a visual reconnaissance from his plane, saw a Soviet plane dropping equipment over Vangvieng, the attaché's office said.

"He flew over on top of the Soviet plane to see what type of equipment it was dropping," a spokesman added.

Officers said the money was stolen from the Radsale Armored Car Service office early Tuesday. They weren't sure a theft had occurred until more than 21 hours later. A time-lock failed to open the vault door at 6:30 a.m., as scheduled.

Authorities waited through the day in hopes the door would open automatically, then brought in pneumatic drills to cut a hole through the side of the vault Tuesday night.

Officers theorized that the time-lock had been set to open the door rather than the usual 6:30 a.m. Several employees of the firm were questioned.

Governor Studies Mrs. Klumpp's Case

COLUMBUS, Ohio (AP) — Gov. Michael V. DiSalle says he's still pondering the fate of condemned murderess Edythe Klumpp.

The governor told newsmen Tuesday that he may pay Mrs. Klumpp a visit at the Marysville Reformatory before deciding whether to grant her clemency. She is scheduled to die in Ohio Penitentiary's electric chair Jan. 6.

Mrs. Klumpp, 42, was sentenced to die for the fatal shooting of Mrs. Louise Bergen, 32, estranged wife of William Bergen, with whom Mrs. Klumpp had been living.

WASHINGTON (AP)—A grant of \$8,230 to aid three Ohio communities — London, St. Marys and Solon—in preparing plans for their growth was announced today by the Urban Renewal Agency.

New General Strike Call Is Issued

Police Use Tear Gas To Rout Opponents Of Austerity Plan

BRUSSELS, Belgium (AP)—Police used tear gas and fire hoses today to break up a demonstration in Ghent. Socialist union leaders promptly called for a general strike in Antwerp to retaliate.

It was the first use of tear gas in the eight-day strike aimed at toppling the government of Premier Gaston Eyskens. Strikers in Ghent were trying to force workers out of the fuel gas works administrative office.

Antwerp, lying in the Flemish northern section, has not been hit as hard by the strike which has paralyzed the Socialist strongholds in the industrial and French-speaking south.

The government had reported a back-to-work movement in Antwerp, except for workers at the big port installations. Harbor installations are still paralyzed.

If successful, the Antwerp call would spread the general strike to an important Flemish area, where many are Social Christians and back Eyskens, himself a Social Christian.

A mass demonstration of strikers was staged this morning in Brussels without incident. The capital itself appeared under virtual military siege. Policemen were camped in the central public park opposite Parliament and the royal palace, and in front of the opera house.

Rallies and demonstrations by the striking, 700,000-member Socialist unions were countered by calls from the Catholic Social Christian unions to their 800,000 members to remain steadfast at work.

The Socialists launched the walkout eight days ago in protest against Eyskens' plans for tax increases and social welfare cuts because of the country's financial setback in the Congo. They denounced the government's strike-breaking efforts as dictatorial, called Premier Eyskens a Hitler and demanded the fall of the Social Christian-Liberal coalition.

Florida Yeggs Get Million in Cash, Checks

TAMPA, Fla. (AP)—Police and FBI agents, who had a harder time cracking a vault than the burglars did, today confirmed that some of the more than \$1 million in cash and checks in the safe was missing.

"We know that several thousand dollars is missing," a spokesman said. "However, it may take several hours of book work to get anything resembling an accurate figure."

Officers said the money was stolen from the Radsale Armored Car Service office early Tuesday.

They weren't sure a theft had occurred until more than 21 hours later. A time-lock failed to open the vault door at 6:30 a.m., as scheduled.

Cubans Say U.S. Supplies Explosives to Anti-Castroites

HAVANA (AP) — Charges that the United States is supplying explosives to terrorists were renewed today by the semi-official newspaper Revolution after a series of bomb blasts in Havana.

It made the charge under a front-page picture of a boy wounded in the bombing of a department store Tuesday. The bombing was one of four in Havana. A train was also wrecked in central Cuba by saboteurs trying to

Catholics Thank Protestants

Defense of Church During Campaign Cited

WASHINGTON (AP) — The Roman Catholic Church has expressed gratitude to Protestant and Jewish leaders who defended it during the 1960 presidential campaign.

A year-end report Tuesday by the National Catholic Welfare Conference spoke of the year as "a prosperous, if stormy" one.

Commenting on the campaign in which a Catholic was elected president for the first time, the report said: "Hundreds of thousands of pamphlets were distributed across the country maintaining that a man must have divided loyalty if he is Catholic as well as American."

"Church officials, faced with the decision whether to endorse open controversy to answer the attacks, for the most part chose silence."

"The silence proved beneficial when Protestant and Jewish leaders moved forward to repudiate the attacks, and repeatedly asked that the man and his policy rather than his religion be the deciding factor in determining the vote."

The Welfare Conference is an agency of American bishops which coordinates common activities of the Catholic Church in this country.

Kidnap Case Leads To Larceny Charge

GALLATIN, Tenn. (AP) — A search for eight persons, first believed kidnapped in Kentucky, ended in a motel room where two of them were arrested on grand larceny charges.

Police also picked up a mother and her five children Tuesday and said their disappearance apparently stemmed from a family dispute.

Laura Wilson said William Brannin and his wife led her to believe they were en route to her husband's home in North Carolina. She denied any knowledge of the \$300 robbery of her mother's restaurant at Munfordville, Ky.

The Brannins, who operated a service station adjacent to the restaurant, were being held for Kentucky authorities.

Chillicothe Judge Named

COLUMBUS (AP) — Gov. Michael V. DiSalle today appointed William J. Jones to be municipal judge in Chillicothe, succeeding William Brown who was elevated to the court of appeals.

Ex-Peron Aides Set Record For Time in Political Asylum

BUENOS AIRES, Argentina (AP)—Two of ex-dictator Juan Peron's policemen set a record this week for time spent in political asylum in a Latin-American embassy.

The brothers Juan Carlos and Luis Amadeo Cardoso have been living for 5 years, 3 months and 1 week in the basement of the Paraguayan Embassy.

That is a week longer than the famous stay of Victor Raul Hays

de la Torre, leader of the leftist APRA party of Peru, who finally was allowed to go into exile six years ago from the Colombian Embassy in Lima.

The brothers Cardoso were attached to the Peron dictatorship's special section of the federales. Their job was to extract confessions from politicians and citizens who ran afoul of the Peron regime.

Moon-faced Juan Carlos and mustached Luis Amadeo are accused of specializing in the use of an electric needle while the victim was tied to a hard table with leather thongs.

Except for the restriction on their movements, Juan Carlos and Luis Amadeo are not faring so badly.

They have repainted the walls of their basement apartment blue to their own taste. Relatives, free to visit them, have brought two radios, a television set and a double bed for each. They have their own telephone, and after the embassy's office hours they may walk in the garden.

A Catholic priest visits them. Occasionally their wives spend the night in the basement. The Paraguayan Embassy gives them \$50 a month as pocket money.

But all these years federal police have maintained a determined watch outside the building.

a post unless he was also rich. Officials feel this is a dangerous limitation.

The pay of an ambassador varies from \$20,000 to \$27,500 a year, which means that an ambassador in the highest category gets more than the secretary of state, whose pay is only \$25,000 a year.

Besides his pay, the ambassador gets two allowances. The first is the entertainment allowance. The other is the house allowance for the upkeep of his residence.

It is generally known that ambassadors at major posts get \$6,000 a year for entertaining and a house allowance ranging from \$10,000 to \$15,000 a year.

Therefore, it has been necessary to appoint rich men to certain posts. If the department was lucky it got a rich man like Douglas Dillon, now undersecretary of state and Kennedy's Treasury secretary designate. Dillon started his public career as ambassador to France.

How much these rich men spend from their own money in their business and anybodies guess: the State Department has no way of knowing.

In some posts the U. S. military comes to the aid of the diplomats. In Berlin, for instance, the military pick up the tab for the State Department, which has a sizable group of diplomats there.

The president-elect has to persuade Roosevelt committee to help if he wants to pick, as rumored, Charles E. Bohler as his envoy to Paris. Until then, however, he will be limited to men who can afford to pay up to \$100,000 a year from their own pockets for representing the United States.

Johnson Due To Control Senate Policy

WASHINGTON (AP) — Friends of Sen. Lyndon B. Johnson, D-Tex., apparently are going to retain control of the Senate Democratic Policy Committee in the new Congress.

Democratic leaders are reported to have agreed on the selection of Sens. Warren G. Magnuson of Washington and John O. Pastore of Rhode Island to fill two vacancies on the group which passes on legislation to be placed before the Senate.

Magnuson and Pastore class themselves as liberals. But their expected selection may be greeted with something less than enthusiasm by such past critics of Johnson's middle-road course as Sens. Paul Douglas of Illinois and Joseph S. Clark Jr. of Pennsylvania.

As the committee is beginning to stack up, self-styled liberals apparently are going to be in the majority. But they include no outspoken critic of the man who will become vice president on Jan. 20.

Sen. Mike Mansfield of Montana, expected to be promoted from Johnson's assistant to the top leadership job, will head the policy makers. His assistant leader, Sen. Hubert H. Humphrey of Minnesota, will become a committee member for the first time as will Sen. George A. Smathers of Florida, chosen for secretary of the party conference.

Besides Magnuson and Pastore, other regular members are Sens. Richard B. Russell of Georgia, Lister Hill of Alabama, Robert S. Kerr of Oklahoma and Carl Hayden of Arizona.

Court Handles 2 Traffic Cases

Circleville Municipal Court handled two traffic violation cases today.

Leonard Campbell, 44, Crowley, La., was fined \$20 and costs for speeding at 70 miles per hour in a 50 mile zone.

Leonard S. Valentine, 23, Route 4, Chillicothe, was fined \$15 and costs for parking on a travelled portion of the highway.

Both drivers were cited by the State Highway Patrol.

Kentucky Cops Resume Hunt For Gunman

JACKSON, Ky. (AP) — State police, counting on an assist from the weather, resumed their search of rugged eastern Kentucky mountains today for a former mental patient who fled from his two-room cabin after barricading himself with his wife and 10 children.

Granville Johnson, 45, slipped through a police cordon Tuesday night, after wounding two officers.

Johnson was lightly dressed as he fled into below freezing temperatures.

Officers surrounded the house in a terrain so rugged the nearest passable road is two miles away.

Finally police fired tear gas inside. But when they rushed the cabin they found only the children, aged 2 to 14, huddled together in fright.

Their parents had slipped away in darkness to get coal, the children said. Later Mrs. Johnson returned and said her husband was armed with a sawed-off .22-caliber rifle.

It was the weapon Johnson used to wound Deputy Edgar Watkins and state trooper Sylvester Walters.

Gasoline Floods Celina Area Ditch

CELINA, Ohio (AP)—A gasoline feeder pipe-line of the Shell Oil Co. broke on Mud Pike four miles west of here today, flooding a ditch with gasoline and posing a fire hazard.

While workmen dug to find the break and repair the pipe, sheriff's deputies blocked the road to all vehicle traffic for fear a spark might set the gas aflame.

The gasoline was running along an open ditch beside the road, and for a time covered a short stretch of the road.

The flow of gasoline was finally halted, but the road remained blocked while company employees prepared to pump the gas from the ditch and make repairs.

Stock Mart Shows Small Upward Climb

NEW YORK (AP) — Stocks made small upward progress in active dealings today.

There was a good deal of switching from group to group selling for year-end tax purposes. It all made for a confused and indefinite market.

An interesting development was a flurry around noon in rail shares, which have been lagging for a long, long time. The depressed Eastern roads led this short-lived flurry.

Also generally higher were steels, tobaccos and oils. Motors, merchandisers, metals and airlines were mixed.

The Associated Press average of 60 stocks at noon was ahead .60 at 220.00 with industrials up .40, rails up .90 and utilities up .30.

The Dow Jones industrial average at noon was up 1.41 at 614.79. Corporate bonds were mixed and U.S. government bonds were unchanged.

Firemen Called To Walnut St.

Circleville Firemen were called to the Carl Malone residence, 332 Walnut St., at 3:15 p. m. yesterday.

Firemen described the trouble as a short circuit in wiring or an overheated motor. Damage was estimated at \$100.

demned the strike as political and revolutionary, aimed at overthrow of democratic processes. Belgium, its Christmas dimmed by the strike, faced a cheerless New Year's with few trains running, many power stations shut down or nearly so, mines and industries at a standstill.

Although the government said conditions were returning to normal in the Catholic-dominated north, where the strike generally had not made great inroads, the situation in the industrial south was gloomy.

In Brussels a 48-hour streetcar strike started. About a third of the cars were running, manned by Catholic union members.

Parliament is in recess until next week. No negotiations have taken place between the government and the strikers.

All police and the army were on the alert, and reinforcements had been sent to sensitive spots. Army reserve units were being called back to duty.

One Parker Pays in Full

Circleville apparently has won half its battle with two Cincinnati men cited here last June for over-time parking.

A check for the balance of one of the fines was received in the mail today by Circleville Municipal Court. The money was sent by Frank Duffey, one of the two men the local court issued warrants against for not paying.

Duffy last week mailed \$1 to the court, although his total fine amounted to \$5.75. In a letter accompanying the check, he said he didn't pay enough attention to the matter and that he was sorry for the inconvenience caused to the local judiciary.

The other warrant was issued against Allen J. Sanker who has not been heard from since sending 25 cents to the court last week. His total fine also is \$5.75.

Mrs. Naomi Houghton, Municipal Court clerk, today informed the Hamilton County Sheriff's Department to cancel the warrant against Duffey. She requested Sanker be notified of the warrant against him.

3 California Couples Ready To Pioneer in Brazil Jungle

HOLLYWOOD (AP)—Three couples from California, including Japanese actress Nobu McCarthy, will set out next spring on a frontier adventure, carving out new lives in the heartland of Brazil.

The husbands are ex-GIs, all successful in their own fields. Dave McCarthy operates a highly imaginative advertising agency. Don Jones is a TV network publicist. Fred Higgins runs a bowling equipment store.

All three served with the armed

Akron School Girl, 13, Penalized for Slapping

AKRON, Ohio (AP)—A 13-year-old girl, who six weeks ago struck a teacher at Thornton Junior High School, today received a suspended sentence to Girl's Industrial School on the condition that she live with relatives in Youngstown.

forces in Japan and married Japanese girls. All three see in Brazil the kind of opportunity that was prevalent in this country before the West was won.

They have pooled their assets to buy 368 acres of virgin land in the highlands 120 miles north of the new capital of Brasilia. They have also been granted a 12-acre tract of a growers' organization which is planting fruit trees.

Nobu is the Japanese beauty who came to America as Dvaeta McCarthy's bride and attracted notice with her incongruous name and her performances in films like "Geisha Boy" and "Five Gates to Hell." How does she feel about leaving to live in yet another country?

"If my husband wants to go, I must go," she said. "He is like Japanese husbands. He cannot find a thing around the house without me."

Nobu is not sure how well she will like pioneering in Brazil, but she is pleased at the prospect of being reunited with her family.

11 Cubans Purged In Radio Shakeup

HAVANA (AP)—The management of CMQ, government-controlled radio station sabotaged in a million-dollar fire two weeks ago, announced today 11 employees have been purged.

The station said five technicians, four newsmen, a coordinator and a master control room worker were fired.

Authorities said phosphorus was thrown into the air conditioning system Dec. 15. The resulting blaze swept two floors in the station's downtown building and destroyed equipment, film and records. Firemen battled three hours to control the fire.

Her mother and father emigrated to Brazil five years ago, and her father is a dress designer in Sao Paulo.

Languages, she admitted, do not come easy to her. She still has the Oriental's problem with L and R and when she says Brasilia it somehow comes out Brassieria.

"I'm doing much better than when I first came here," she said. "My husband could speak no Japanese, and I knew no English. It could be very embarrassing."

Nobu's husband and his fellow pioneers are not going on the venture blindly. They have thoroughly researched their chances for success and found that the area they chose is the best for growing all kinds of fruit. It is frost-free with a median temperature of 69 degrees and 60-70 inches of rainfall. "Brazil is like this country 75 years ago," says one of them. "The economic possibilities are unlimited."

Thugs Get \$8000 In Swift Holdup

DETROIT (AP)—Two armed men robbed a branch of the Michigan Bank in suburban Dearborn Township of about \$8,000 in a swift holdup Tuesday.

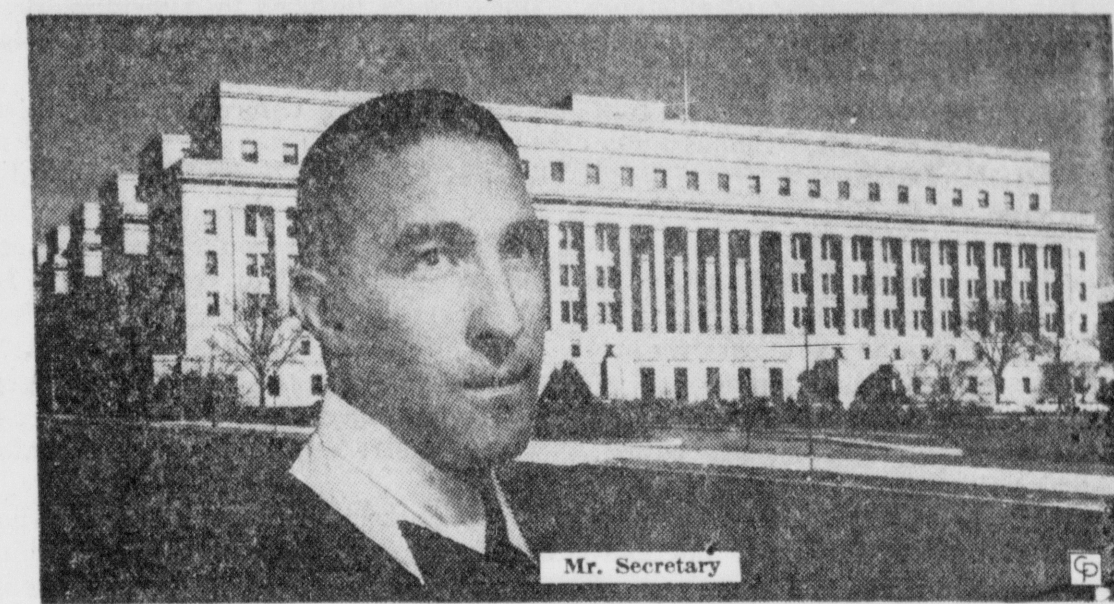

Police said the pair spent no more than two or three minutes in the bank before fleeing in a stolen car later found abandoned in a parking lot.

One of the two shouted "hit the deck" to a half dozen employees and customers as the robbers burst through a door with guns drawn.

Bernard C. Boczar, 36, manager, said the robbers ordered everyone to "get on the floor and keep your heads down."

No shots were fired. No one was injured.

Smog a New Disease

Smog is a man-caused phenomena which has become his bane of existence in cities located in valleys or near mountain or water barriers where air currents are not capable of removing exhaust fumes and smoke fast enough. Despite smoke-control efforts, smog still remains an unsolved problem.

Man has not reached the point in his efforts to return clean air to his cities where he should throw up his hands in surrender and accept any authoritative proposal regardless of the consequences.

Hysteria has no place in a program as vital to a community as smog prevention. It certainly will not solve anything.

A California Institute of Technology professor, Fritz Zwicky, advocates the control of smog by the removal from use of automobiles not required for essential travel within cities plagued by the problem. Professor Zwicky does not advocate the actual banning of automobiles. It might be better if he did.

What he proposes is that a special tax of \$1 a day be imposed on all automobiles traveling urban streets with only one occupant. These cars should be identified by special tax stickers, and any not so identified would be fair game for all traffic policemen. Motorists caught without a passenger or tax sticker would be liable for a heavy fine.

Such a program, says Professor Zwicky, would remove many cars from the throughways and city streets and result in a 20 per cent reduction in smog.

Money collected from the stickers and fines would be used to subsidize private research groups devoted to the alleviation of smog.

Not including unforeseen difficulties of administering a program such as outlined by the California professor, several are raised in the scientist's own description of his proposal. What would it cost to license automobiles owned by residents of Los Angeles, the city used by Professor Zwicky as his theoretical guinea pig? In addition to the initial cost of the program, what about the cost of additional police patrols, magistrates, etc., needed to enforce it?

What of the injustice to motorists who do double up, only to be fined an exorbitant amount on the one day their passenger stayed at home. There is the additional effect on business certain to be felt in areas off bounds to motorists not traveling in togetherness.

Is a 20 per cent reduction in smog worth all of this? Research has not ceased in this area. It slow progress is indicative of the complexity and difficulty of control man's waste has created.

Every Fifth Family on Move

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Santa Claus owes a lot to the Tibetan yak as well as to his reindeer. The best Kris Kringle whiskers are made from yak tail hairs.

Americans are still a restless people, even though the frontier has disappeared. One of every five U.S. families moved to a new dwelling last year.

Having trouble reading at home lately? Maybe you need stronger light bulbs. People ordinarily need more light to see by as they grow older. The intensity of illumination should be nearly doubled with each 13 years of age.

White House chit-chat: The architects who designed the White House forgot to provide a laundry room, so Abigail Adams, wife of the second president, strung up a clothesline in the audience chamber. Louisa Johnson, wife of President John Quincy Adams, was our only foreign-born first lady. Her birthplace was London.

Odd Legislation: A Gary, Ind., statute once made it illegal to

board a streetcar within four hours after eating garlic.

Our Quotable Notables: "I don't care which side my bread is buttered on," said Will Rogers. "I eat both sides anyway."

When you think of a doctor, you usually think of a physician. But there are about 50 other kinds of doctors besides the M.D. They range from Doctor of Agriculture (D. Agr.) to Doctor of Surgical Chirology (D.S.C.).

Strange Customs: In Arabia, youths of the Bedouin desert tribes never eat in the presence of their fathers. (At some meals I have the same trouble with my 7-year-old daughter.)

Onward and Upward with Modern Industry Note: During the holiday week bellhops at the Hotel Edison here will sing Christmas carols to guests on request.

In 1903 Orville Wright flew 120 feet in the first powered flight of an airplane. The big new modern planes now measure more than that from nose to tail.

Babel among the Birds: Scientists discovered that crows living in different sections of the coun-

try cannot understand each other. They appear to speak separate dialects—just as people do.

For December's Children: An old rhyme says, "If cold December gave you birth, the month of snow and ice and mirth, place on your hand a turquoise blue; success will bless whate'er you do." (The turquoise is supposed to bring you luck in terms of both love and money.)

Item from the Animal World: The spotted skunk has an odd trait. When excited, it stands on its hands.

America has only 6 per cent of the world's population, but 68 per cent of the world's autos. We have a car for every 2.6 adults, Soviet Russia one for every 61.

Marital Beginning: In the Dutch East Indies a bridegroom treads barefooted on a raw egg before entering his new home. Inside his bride waits with a bowl of warm water. She washes his feet—and thus proves she will be a worthy wife.

It was Marie Curie who observed, "Nothing in life is to be feared. It is only to be understood."

Did Mystery Man Aid Castro?

The anti-Castro Cubans have been telling me for more than six months that an official of the State Department, William Arthur Montenegro, is responsible for the success of Fidel Castro.

But the State Department records do not show the employment of a William Arthur Montenegro. Is this a personality with two names? Does a person who has an effective voice in determining American policy in Latin America go by two names?

Latin American Communists know of two men by the name of Montenegro, one who is actually name wrote for the "Havana" other who was very sympathetic to the party. Both were journalists.

This is a case for Robert Kennedy, the on-coming Attorney General, a very tough "Mick" who is not likely to look on a cover-up very kindly. His book, "The Enemy Within," establishes that he regards the Department of Justice with a jaundiced eye because it has lost too many cases in the courts which adequate preparation should have won.

Searching for Montenegro ought not to be difficult. No matter what name he employs, the record of how things were made easy for Castro by the government of the United States will lead directly to a case which, if properly prepared, will make previous cases look very mild, indeed.

William Arthur Montenegro under that name and under another trick is to send him to other parts Post" from 1933 to 1937. That is a good place to start if anyone needs a tip. There are articles in that newspaper which were contributed by such a person.

The State Department has a technique for covering up and for evading scandals. When a State Department official goes wrong or is caught with bloody hands, the

trick is to send him to other parts of the world, far from news centers until those who are interested forget about him, get interested in something else, or die. Then the career official who went awry may return to Washington.

But the Cuban story will not die down. Too many Cubans have been robbed of their homes. Too many Americans have lost their businesses. Too many Latin Americans fear the Communist menace.

They are after William Arthur Montenegro, by whatever name he has gone in the State Department. They know who he is and they will not rest, no matter to what embassy in Europe, the State Department sends him.

Where there such a committee as Sen. McCarran of Sen. Joseph McCarthy headed, there would be an investigation of major magnitude and it would be out in the open. Sen. Fulbright is insistent that the State Department depend upon especially trained men, career men, those who prepare themselves for the Foreign Service and stay in it as a life work.

Therefore, it is up to Sen. Fulbright to investigate William Arthur Montenegro by whatever name he has gone in the State Department for nearly two decades. Also they would want to know precisely what incompletely educational preparation this person had for a State Department career.

How is it possible for a person to enter upon a State Department career without training, with a record of only one year in college and an incomplete pre-medical course? What goes on in that very choice department of government?

On this subject, there ought to be a public hearing and the first three men who ought to testify in public should be Robert Hill, American ambassador to Mexico, Arthur Gardner, American ambassador to Cuba, Earl E. T. Smith, American ambassador to Cuba.

These men should be required to tell publicly, under oath, what their personal experience has been in the Castro matter and what their experience has been with the State Department, and what reports they sent to the Department, and what reports they sent to the Department warning of the perils in Latin America and how their warnings were ignored.

It would be interesting to know if such reports reached high officials, particularly President Eisenhower. Also, such an open, public hearing might ask Herbert Matthews of "The New York Times"

to identify William Arthur Montenegro. Anti-Castro Cubans insist that to understand the State Department attitude toward Castro, it is essential to have Matthews identify Montenegro.

Also, Ambassador Earl E. T. Smith told me that when he was appointed ambassador, he was instructed by the State Department to be briefed by Herbert Matthews. Smith also testified to this effect before a Congressional committee.

PLAYWRIGHT HARRY KURNITZ, on an Atlantic crossing, once occupied a deck chair next to the great George Bernard Shaw. Shaw had his nose buried in a book the first two days, however, and Kurnitz was too over-awed to interrupt him, although he was dying to know what book it was that engrossed Shaw so thoroughly.

Finally, Kurnitz saw his chance on the third morning. Shaw put down the book and set forth on a walk round the deck. The moment he was out of sight, Kurnitz picked up the book. It was "Volume IV of the Collected Plays of George Bernard Shaw!"

The World Today

By James Marlow

WASHINGTON (AP) — Robert Kennedy brings a lot of energy to a job that can use it—as attorney general and head of the wide activities of the Justice Department.

With the exception of the outgoing attorney general, William Rogers, Kennedy's new job has been held by a long line of lawyers not distinguished for fiery zest.

As head of the Justice Department Robert will have enough to keep him busy without being an adviser—especially on politics—to his brother, President-elect John F. Kennedy, although he almost certainly will continue to do some political advising.

Many of the chores Robert undertook before can now be shifted to John M. Bailey, resident-elect

Kennedy's own choice for chairman of the Democratic National Committee.

The Justice Department is such a vague official identification that it is easy to fail to recognize the broad power over many fields of American life given to Robert by his brother.

Under the department's broad umbrella come the FBI, the Immigration and Naturalization Service, the Board of Immigration Appeals, the Bureau of Prisons, the Board of Parole, the United States Marshal's office and around 30,000 employees, of whom about 5,000 are lawyers.

But this is only the superficial and obvious face of power in Robert's hands.

The attorney general is the government's chief legal adviser. The Justice Department does all the prosecuting in federal criminal cases.

It has its hands in many other aspects of American living which it can deeply affect and influence by its activity or lack of it.

Take the Tax Division which acts against law violations and evasions by individuals or corporations. Its Actitrust Division alone is a powerful force for preventing monopoly practices by big business.

The recently created Civil Rights Division—which both whites and Negroes will watch intently—can, if it wishes, be a driving engine against civil rights violations, particularly in the South.

Other segments include the Civil and the Internal Security Divisions. The latter over the years has prosecuted many top Communists. The Alien Property Office is also under the Justice Department.

And, since Robert made a rep-

utation investigating labor racketeering he can be expected to be active in some way in this field, too.

Memorial Started for Crash Victim

NEW YORK (AP)—An anonymous gift of \$1,000 has started a memorial fund for Stephen Baltz, 11, the boy whose fight for life after an airplane collision won the sympathy of the nation.

The money was sent to the Methodist Hospital of Brooklyn, where the boy died 27 hours after the crash that cost 135 other lives here Dec. 16.

The donor was described at the hospital only as "an elderly maiden lady."

The gift, along with other money being received in the boy's memory, mostly in denominations of \$1 to \$5, will be used to establish a memorial room on the children's floor of the hospital.

Fire-blackened coins found in the boy's clothing—five nickels and four dimes—will be fused into a memorial plate to be hung in the room.

The Rev. Donald Stockdale Stacey, the hospital's field chaplain, said the hospital has been "swamped with mail from all parts of the country."

Some letters contain contributions, but most represent expressions of sympathy.

Hypnotist Held in Wild Bullet Spree

SONOMA, Calif. (AP)—A 33-year-old hypnotist admitted today he killed a father and wounded two of the man's daughters and a stepson in a wild shooting spree.

William Chamberlain of Sonoma, who told police he holds a doctor of philosophy degree and operates an institute of hypnotherapy in San Francisco, was charged with murder.

Police said Chamberlain was captured in a tree a half hour after the shooting Monday night.

Dead was Elmer Ghiggoli, about 60, a cheese firm employee. In critical condition were his two daughters, Sandra, 6, and Sharon, 13, slightly wounded.

Chamberlain, father of two, gave no motive for the shootings. Inspector Robert W. Hayes said Mrs. Ghiggoli and Sharon had been employed as baby sitters for the Chamberlains in the past year.

Hayes said Chamberlain drove to the Ghiggoli home, leaving his family at a house across the street. He grabbed and kissed Sharon when she answered the door, then tried to coax her into the car.

Chamberlain chased the girl into a bedroom. Hayes said, and pulled a .22-caliber pistol. Ghiggoli, clad in pajamas, was killed by a single shot. Chamberlain then shot twice at Sandra, who was in bed, and fired three times at Sharon.

Hayes said moments later Morgan drove into the family driveway and was shot in the upper left arm by Chamberlain.

WHAT DOCTORS SAY ABOUT:

Blood Pressure

- T.B. And Marriage
- Menarche
- Snakebite

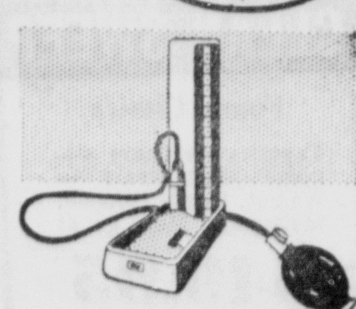

Q. If high blood pressure is lowered will a person live longer?

A. There are a number of measures, (some involving new and effective drugs) by which blood pressure can be lowered. It can now be said that patients in the middle-age group and younger who have moderately elevated pressure can anticipate a somewhat longer life if they respond to these pressure-lowering measures. In older people the lowering of blood pressure alone, unless it is extremely high, would not be the chief or only consideration in prolonging life.

Q. I have arrested tuberculosis. Is it safe for me to marry?

A. It would probably be safe for you to marry provided your doctor agreed and informed you of the necessary considerations to prevent flare-up of the disease. Both parties should also be thoroughly acquainted with the hazards of reactivation of the disease as well as exposure of possible children.

Q. At what age will the menopause occur in a woman who started menstruating at 12 1/2?

A. The age at which menstruation starts (menarche) is not related to the age at which the menopause will occur. It is rare for a woman to experience menopause symptoms before 42 or 45. The majority have ceased menstruation sometime between 45 and 50.

Q. First aid manuals recommend that in poisonous snakebites the flesh be cut at the site of the bite and suction applied. Is this the thing to do?

A. It is often recommended, but Army doctors, experimenting with animals, found that suction not only failed to remove enough venom to do much good but that the procedure may even hasten the spread of the poison. The pros and cons can be cleared up by further experiments.

Thoburn Circle Hosts Yule Meet at Russells

The Christmas meeting of the Isabella Thoburn Circle of the Kingston Methodist Church was held recently in the home of Mrs. William Russell, Kingston.

Ten members and a guest, Mrs. Fred Jones, were present.

The session opened with members singing Christmas carols. Mrs. Fred Duvé gave devotions.

The origin, symbols and history of Christmas were presented by Mrs. Don Beeman.

Members donated towards the purchase of new church hymnals. Plans were completed to serve a turkey dinner at the Farmers Exchange banquet.

Refreshments, in keeping with the Christmas season, were served by the hostess.

Barnes Girls Entertain at Holiday Tea

Misses Carol and Sue Barnes entertained at a Christmas Tea Thursday afternoon at their home, 619 N. Court St.

Approximately 30 young ladies, business and college students, home for the holidays, were present.

An array of red carnations formed the centerpiece. Decorations and arrangements, in keeping with the holiday season, were evident throughout the Barnes home.

Former Kingston Girl Is Wed in Youngstown Church

Miss Rose Marie Francis and Mr. Roger Denis Detrick were united in marriage Saturday, December 17th in the Chapel of Friendly Bells, Trinity Methodist Church, Youngstown.

The bride is the daughter of Mr. and Mrs. Ralph Francis, Vandalia. The Francis family formerly lived in Kingston where Mr. Francis was superintendent of schools for a number of years.

Mr. Detrick is the son of Mr. and Mrs. Frank Detrick, Dayton.

The Rev. Philip Dietterich, brother-in-law of the bride, performed the ceremony.

The bride, given in marriage by her father, was attired in a floor length gown of taffeta featuring an elongated bodice with a scoop neckline.

Her fingertip veil was caught to a crown of seed pearls and rhinestones. She carried white roses and stephanotis.

Mrs. Philip Dietterich was matron-of-honor for her sister. The bride's niece, Gayle Williams, Mid-

dletown, was flower girl.

They wore identical gowns of red velvet with white fur muffs and fur headbands. Their muffs were highlighted with red poinsettias.

Best man was Fred Ehrensberger, Dayton. Forest Claypoole and Jon Pavey, Columbus, were ushers.

Mr. and Mrs. Detrick are seniors at Ohio State University, Columbus.

Devised Oven Eggs
Carrots with Lemon Butter
Green Salad Hard Rolls
Fruit Beverage

DEVELOPED OVEN EGGS
Ingredients: 6 eggs, 4 tablespoons butter or margarine, 1 teaspoon instant onion (crush fine), 1 teaspoon parsley flakes (crush fine), 1/4 teaspoon salt, 1-16 teaspoons prepared yellow mustard, 1 container (8 ounces or 1 cup) commercial prepared sour cream, 1-3 cup fine dry cheese and herb flavored bread crumbs.

Method: Hard-boiled eggs and halve lengthwise; remove yolks and mash them fine with 3 tablespoons of the butter, onion, parsley, salt, pepper and mustard. Refill white cavities with yolk mixture. Place stuffed side in a deep heat - resistant glass pie dish (8 1/2 by 1 1/2 inches deep) or similar baking dish. Spread sour cream over top so eggs are covered. Melt remaining 1 tablespoon butter and mix with crumbs; sprinkle over sour cream. Bake in hot (400 degrees) oven 20 minutes. Makes 4 servings - 3 egg halves per portion.

New Year's Resolutions for Young Moderns

Now is a good time to list resolutions for the New Year.

We may find it difficult to remember them as 1961 progresses, but some headway is made if we can be conscious of our personalities without becoming goody-goody.

Here are some ideas to mull I will not be a joiner: (a) because "everyone is doing it," (b) if it causes a loss of dignity, (c) if the organization is secret because it would not be acceptable to most people.

I will respect my parents judgment: (a) if they have cautioned against parking in lonely spots, (b) want to meet my escorts, (c) warn against visiting off-beat places.

I will not be a pipeline: (a) if friends confide in me, (b) if I'm told something that is hearsay, (c) if I know that an unpleasant situation will arise concerning a friend who hasn't been told.

I will not go along with beatnik philosophy and: (a) resent people who conform to regulations, (b) live without a goal, (c) become careless in my dress.

I will not jump at a last-minute date: (a) if an evening of study is necessary, (b) if the family expects me to be on hand for an important occasion, (c) if a group of girls have been depending on my presence at a hen party.

I will not rebel against authority: (a) running down my parents to others, (b) becoming disgruntled with school officials, (c) hating all adults who do not agree with my point of view.

I will not be a boy snatcher: (a) Trying to snare a boy from another girl for the sake of the challenge, (b) Inviting a boy out when I know he has a one - and - only, (c) planning a social engagement for the express purpose of attracting another girl's beau.

I will not be insular: (a) I'll help less fortunate friends if I am able, (b) assist in community and campus projects for worthy causes, (c) lend a helping hand to less brainy classmates.

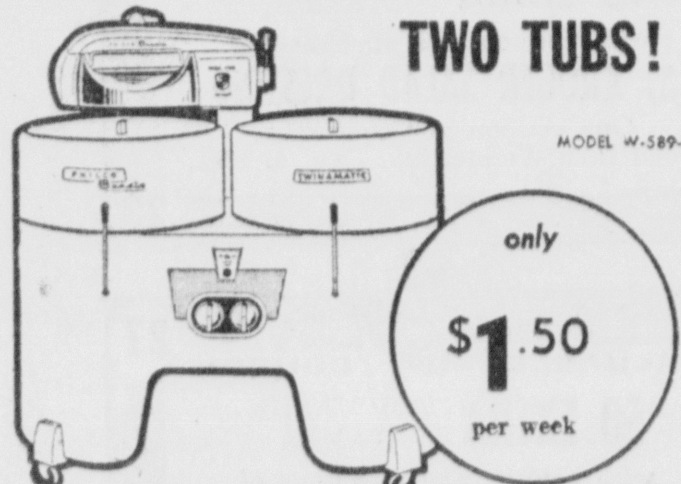

I will not be a prude: (a) I'll try to make friends, not elude them, (b) I'll accept invitations from friends I like, even if they don't measure up to me socially, (c) I will not dampen party plans because I don't like my friends invited guests.

I will not brag about my assets: (a) if I have a larger wardrobe than my friends, (b) if my allowance is bigger, (c) if I am more popular with the boys.

I will not resist my family: (a) closing them out from my interests, (b) giving them the "you are just old - fashioned routine," (c) denying them my presence for occasional family chit-chat.

If the edge of your pie crust gets too brown before the rest of the pie is done, cover the edge with a strip of foil. Pie tape may be used of course - if you have it in the house.

Dear Abby...

By Abigail VanBuren

It's Not a Solution, Lady!

DEAR ABBY: The company my husband works for had a Christmas party. I got down on my hands and knees and begged him not to go this year because last year he came home drunk with lipstick all over his face. Well, he went anyway and came home drunker this year than last and full of lipstick. I hit him on the head with a lunch bucket and cut his head open a little bit. (He was lucky I didn't kill him.) He said he only went to show the men he wasn't henpecked. Do you blame me for hitting him?

AGGIE
DEAR AGGIE: A woman has no more right to hit her husband than a man has to hit his wife no matter how high the feeling (or the husband) is. Your husband certainly didn't need ANOTHER hole in his head; he has one.

DEAR ABBY: What can you do about a neighbor who, knowing perfectly well you have company, charges right in the front door, marches into your kitchen and remains there, monopolizing the conversation right up until the time your company leaves?

Honestly, I can't stand the thought of hurting her feelings, because I know I am welcome in her home any time, but I would never do to her what she does to me. I have had friends, who I haven't seen in years, come to visit me, and we have so much to catch up on, but this neighbor takes up all our time. Even my relatives think twice before coming over because they know she will be here. It's getting me down. Is there a solution?

LOSING PATIENCE
DEAR LOSING: Yes. Tell your neighbor straight from the shoulder that she is welcome to "drop in" any time, but when she sees that you have company, you'd appreciate privacy. If you lose her friendship, you aren't out much.

DEAR ABBY: Have you ever heard of a couple being engaged for sixteen years? The girl is my sister. It has become a family joke, only it's not funny any more. She is 41 and he's in his fifties.

Pro Grid League Chieftain Tries To Speed Up Draft

PHILADELPHIA (AP) — "Two minute warning," said National Football League Commissioner Pete Rozelle.

Rozelle had to go to extremes Tuesday to get one of the slowest moving player selection meetings in modern history into even low gear. He finally put a 10-minute limit on selections and issued a two-minute warning. The teams took 15 hours to pick 126 players in nine rounds. The balance of the 20-round draft of 280 players was adjourned until today.

The league's newest franchise, Minnesota Vikings, wasted little time making the No. 1 pick. General Manager Bert Rose took Tulsa halfback Tommy Mason, a third team All America covered by a number of clubs. Rose, who earlier gave the impression he might trade Mason for a veteran quarterback, said later the 21-year-old Southeastern Conference star would not be dealt.

After Mason was taken, the drafting made the snail like a 10-second sprinter. It took five hours to complete the first round. Teams took as long as two hours to decide on one choice. Cleveland dickered with Dallas for 2 1/2 hours before finally trading the Cowboys its first choice for a player and a 1961 first pick.

Dallas used the selection to take Bob Lilly, TCU's All America tackle. The Cowboys later took E. J. Holub, Texas Tech linebacker. Now all the Cowboys have to do is outbid the American Football League Dallas Texans for the pair.

The AFL, incidentally, was the reason for the tortuously slow procedure. NFL clubs had a telephone on each table in the drafting room. They didn't pick a man unless he had been contacted and assurance given that the player had not signed with the AFL, or

Canada, and would play in the NFL.

Six of the 1960 All Americas were tabbed for pro warfare. Detroit took Missouri's Dan LaRose, Chicago latched onto Pitt end Mike Ditka, St. Louis got Auburn tackle Ken Rice. Philadelphia took Yale guard Ben Balme, Dallas picked Lilly. Cleveland got Mississippi quarterback Jake Gibbs. Gibbs, who probably will play baseball, wasn't selected until the ninth round.

AFL teams earlier this month took most of the same players. They included Mason (Boston), Snead, Rice and Baker (Buffalo), Rutgens (Oakland), McKeever and Kilmer (Los Angeles Chargers), Ditka (Houston), Matte, Casey and Adderly (New York). Bob Crespino, Mississippi end taken by Cleveland, also was selected by the AFL's Oakland team.

PHILADELPHIA (AP) — These players from Ohio colleges or with Ohio hometowns were selected in Tuesday's nine rounds of the National Football League draft:

Baltimore — Tom Matte, Ohio State QB, first round; Ike Grimsley, Michigan State LB (Canton), seventh round.

Detroit — Bob Brooks, Ohio U. FB, ninth round.

Green Bay — Ron Kostelnik, Cincinnati T, second round.

New York — Bob Gaiters, New Mexico State B (Zanesville), second round.

Philadelphia — Wayne Fontes, Michigan State B (Canton), ninth round.

San Francisco — Bernie Casey, Bowling Green B, first round; Bill Cooper, Muskingum FB, third round; Ray Purdin, Northwestern B (Greenfield), seventh round.

Washington — Jim Kerr, Penn State B (St. Clairsville), seventh round.

Clarksburg, Unioto Get Wins In Centralia Cage Tourney

Clarksburg and Unioto emerged winners in the first night of play in the Holiday tournament at Centralia last night.

Close battles marked both games in which identical scores were recorded. Clarksburg nipped Centralia, 71-68, and Unioto edged Kingston, 71-68, in an overtime.

Clarksburg took advantage of the foul line, sinking 33 of 47 chances. Centralia led in field goals,

29-19, but it wasn't enough to make up the difference in foul shooting.

Centralia held a 40-25 margin at halftime, only to see Clarksburg come roaring back for 23 points in the third quarter and the same number in the finale.

THREE Centralia players hit in double figures, with Monty Hinton showing the way with 21. Jim Allen snacked 19 and Don Ault 13.

Bill and Jerry McDonald formed a deadly duo for Clarksburg for a total of 52 points between them. Bill hit 28 and Jerry 24.

Kingston was edged in the overtime despite 30 points by Dan Vollmar. Kingston led at halftime, 29-22, but Unioto went on a spree for 22 points in the last quarter to knot the regulation game at 65-65.

All six of Unioto's points in the overtime were scored by Neff. Dailey led the winners with 20, followed by Neff's 14 and 10 each by Montgomery, Wunsch and Shoultz.

Vollmar, collecting 14 of 27 chances at the foul line, spearheaded Kingston all the way. Kempton was a key assistant with 16.

Unioto and Clarksburg will meet Thursday for the tournament championship at 8:30 p. m. Kingston and Centralia will battle for consolation honors at 7 p. m.

Tom Harber of Walnut Holds Firm Grip on County Scoring

Tom Harber, Walnut Township's fine center, dominated Pickaway County cage scoring at the close of last week's schedule.

The 6-2 senior is rolling along with a 26.4 average for seven games. He has dumped in 185 points to make him the only county cager with an average in the 20's.

The Walnut sharpshooter has hit 69 field goals and 29 free throws to lead the field in both departments.

Holding down second place as the eighth week of basketball gets under way is Chuck Spangler of Lo-

gan Elm. The agile cager owns a 19.1 mark for six games.

SPANGLER, a mainstay for the Pickaway County League leading Braves, has accumulated 115 points. His production stems from 46 baskets and 23 foul tosses.

Two Ahville Broncos, Tom Rathburn and Dick Hollenback, currently are deadlocked for third with a 17.8 average each.

Rathburn has 46 buckets and 15 free throws while Hollenback has 40 goals and 27 points at the charity line. Ther 107 tallies have been scored in six games.

Holding fourth place is Marty Noble of Williamsport with a 16.2 average. He has scored 130 points in eight games.

Another deadlock looms for fifth place with Bill Hoover of Walnut and Bob Eitel of Jackson holding the honors at 15.7 each.

Hoover has tallied 110 points in seven tests and Eitel 126 in eight.

GARY Thompson of Jackson stands in sixth place with a 15.6 mark for eight tilts. He has 125 points.

In seventh place is Bob White-

side of Scioto. He has fired for 109

points in seven contests for a 15.5 average.

Eighth place belongs to Gary Hunt of Monroe who has scored 86 points in six games for a 14.4 clip per tilt.

Jerry Vance of Darby is the county's ninth leading scorer. His 85 points in six games gives him a 14.1 average.

Rounding out the top 10 is Donnie Steinhauser of Williamsport with a 12.4 average. His total is 99 points in eight games.

Ike's Son To Enter Army War College

WASHINGTON (AP) — Lt. Col. John Eisenhower will go to the Army War College in Pennsylvania after his father leaves the White House.

He has been serving as a military assistant at the White House since 1958.

The younger Eisenhower's name

appeared today on a list of 162 officers selected to attend the class at Carlisle Barracks, Pa., starting Aug. 17.

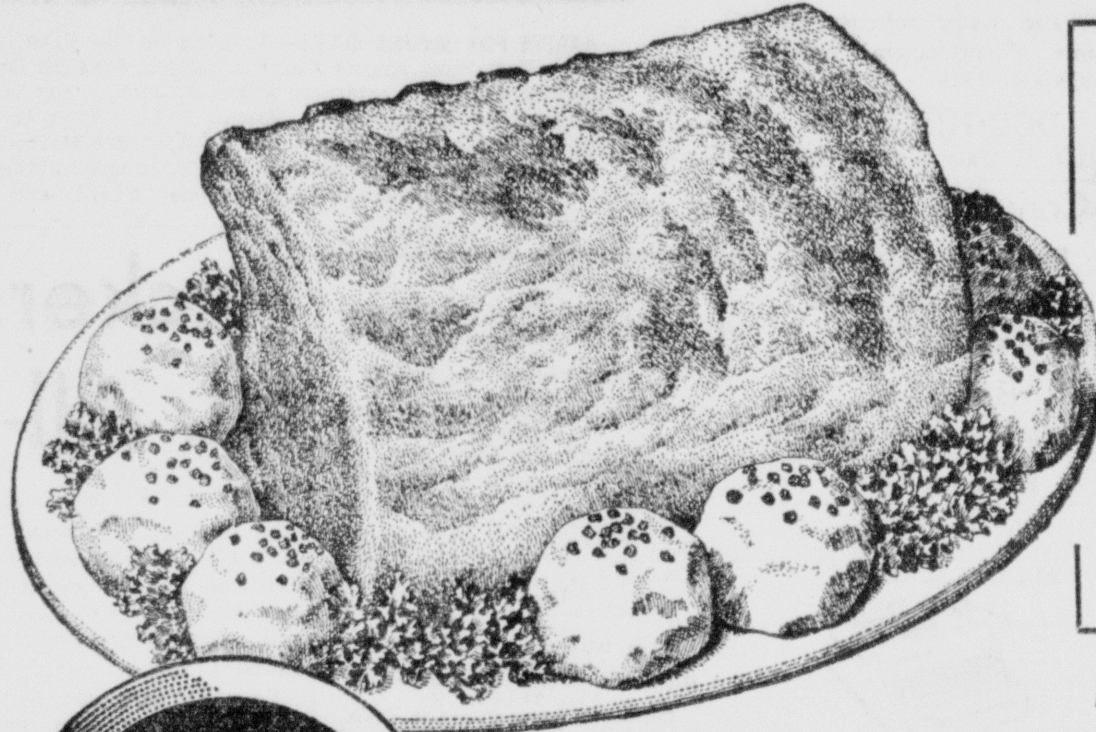

The Army said Col. Eisenhower will be given other duties prior to the beginning of the 10-month course at the institution which prepares selected officers for higher command and staff positions.

Johnny Bower of the Toronto Maple Leafs holds the American Hockey League record for shutouts. He turned in 45 as a goalie with Cleveland and Providence.

Browns Select 'Good Receiver'

PHILADELPHIA (AP) — Bob Crespino of Mississippi, tabbed by Coach Paul Brown as "a good receiver," was the Browns' first choice in Tuesday's National Football League player draft.

Crespino, who probably will try out as a flanking back, was the 10th player to be chosen. A speedy and powerful 6-foot-4, 215-pounder, he starred at clogging passes and also built a reputation as a blocker.

The pick on which Crespino was obtained actually belonged to Detroit but the Lions had traded it away before last season for quarterback Jim Ninowski. When Cleveland's own first-round turn came up, it was traded to Dallas for offensive tackle Paul Dickson and the Cowboys' first choice in next year's draft.

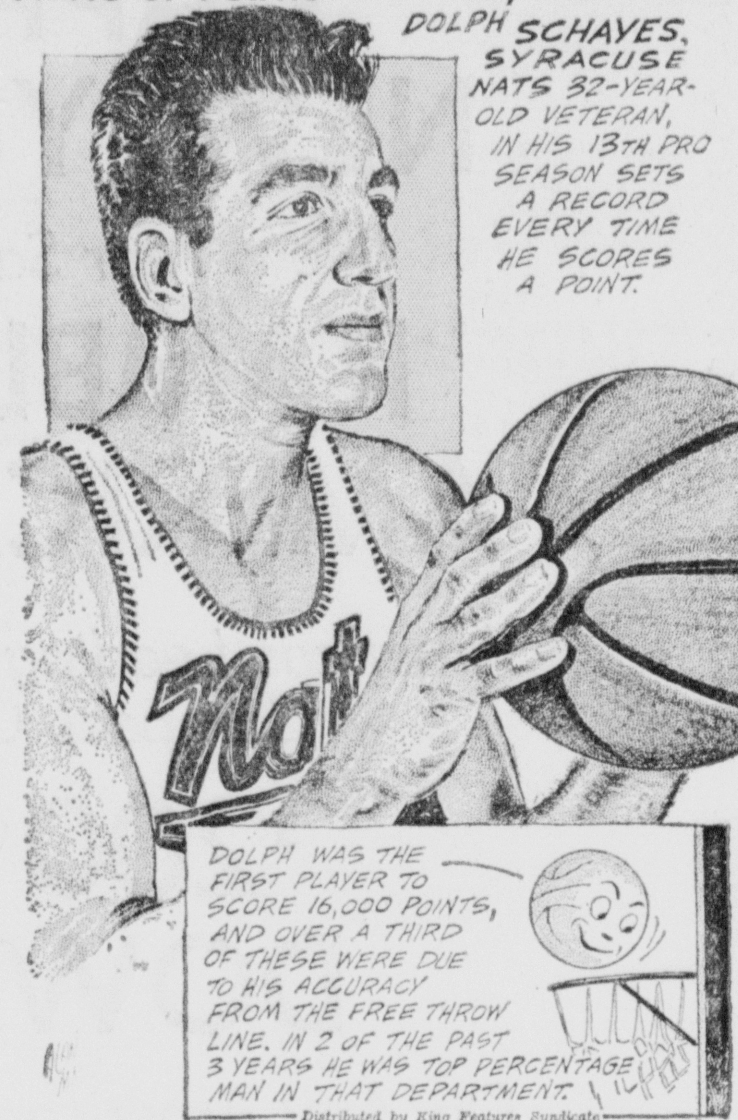

Luigi Fratangeli, apprentice jockey who rode the New Jersey circuit this season, is from Cecano, Italy. He rode his first winner last May at Garden State Park.

Manager Gene Mauch of Philadelphia has retained Andy Cohen and Ken Silvestri as coaches for the 1961 baseball campaign.

Views on Television - Radio

By CYNTHIA LOWRY
AP TV-Radio Writer

NEW YORK (AP)—Television, providing massive doses of handy entertainment, is raising hobs with the old, established star system which flowered in the living theater and through the great days of motion pictures.

At least, that is the opinion of producer Leland Hayward, whose definition of a star is "a performer who is so strong or so beloved that people will go to see him regardless of what he is doing."

"There are very, very few stars today," reflected Hayward. "There's Mary Martin and Ethel

Merman, of course. And, whether you like him or not, there's Frank Sinatra. And Elizabeth Taylor, who is getting a million dollars for one motion picture and who hasn't made a movie that hasn't been a financial success, who is as close to a real film star as you can get."

Hayward believes that the current shortage of stars is due partly to the acceleration of pace of the whole world, and partly because in television both networks and sponsors don't really give a performer a chance to show his stuff.

Hayward currently is working on "The Gershwin Years," a 90-minute CBS special for Jan. 15. He believes that it can achieve one of those gigantic ratings of the help of one of his star choices, Miss Merman, the star quality of the music of George Gershwin plus the fascinating era in which Gershwin lived — those pre-depression years.

Hayward recently has hooked up with a pay-TV outfit, arch-enemy of the networks, as a consultant.

"The problem is to prove that pay-TV will work," he confesses. "And if it is to work, it will have to go in a different direction from commercial broadcasting. I don't think it should even try for programs which would get enormous audiences, but should concentrate on really special things."

Among the "special things" Hayward has in mind are good plays, well produced, and repeated several times, and top drawer, first-run motion pictures.

Son Held in Slaying Of Lebanon Man, 46

LEBANON, Ohio (AP)—James Spies, 25, faces a first-degree murder charge in the Christmas Eve shooting death of his father, Russell Spies, 46. Police filed the charge Tuesday.

Stanley Kolb, Warren County prosecutor-elect, said James Spies admitted his father was shot after an argument whether they would hear radio or see a television program. Police said Young Spies earlier contended his father was shot accidentally after a target practice session with a .22 caliber pistol.

College Cage Powers Battle For Top Honor

Ohio State, Bonnies, St. John's Win with Ease in New York

By THE ASSOCIATED PRESS

There is going to be some tugging and pulling among the nation's college basketball power before the week is out. That's for sure.

The situation in New York's Holiday Festival shapes up as a battle of giants after Ohio State, the nation's top-ranked team in the current Associated Press poll, third-ranked St. Bonaventure and seventh-ranked St. John's all emerged victorious Tuesday. Then add Utah to the list and there certainly are fireworks aplenty brewing.

Off the tournament trail, second-ranked Bradley had to go into overtime to beat Drake 87-77 Tuesday night while St. Louis ranked eighth, and fifth-ranked Louisville warmed up for their Friday night clash with victories. St. Louis won over Southern Methodist 74-50 and Louisville easily dumped Brigham Young 95-67.

Tonight, Indiana (No. 4) gets into action against Stanford in the Los Angeles Classic while Duke (No. 6) and North Carolina State (No. 10) begin tournament play Thursday in the Dixie Classic against Villanova and Wyoming respectively.

Ohio State, showing its overwhelming balance, easily beat Seton Hall 97-57, the Bonnies to no trouble defeating St. Joseph's 83-70 and St. John's started fast and handed Providence its first loss 76-64. Utah won over Penn 72-60.

In other tournaments Baylor upset Oklahoma City 73-63 and New York University beat Tulsa 70-61 in the first round action of Oklahoma City's 25th All College Tournament. Houston faces Wichita and Utah State meets Texas Christian tonight.

Iowa State won over Missouri 72-68 and Kansas beat Nebraska 78-53 to set up the semifinal round in the Big Eight tournament tonight. Kansas State will meet Oklahoma, Monday's first-round winners, and Kansas and Iowa State, the defending champion, will play the other game.

The University of Detroit and Colorado State University moved into the finals of the Motor City Classic tonight. Detroit conquered Yale 83-67 and CSU beat Xavier (Ohio) 71-65 Tuesday night.

Purdue beat Notre Dame 78-58 behind Terry Dischinger's 32 points and Butler upset Illinois 70-68 in the Hoosier Classic. The teams change partners tonight. Denver won over Los Angeles State 79-74 and Penn State edged host Evansville 75-74 in the Evansville invitational. The winners face each other tonight.

St. Mary's beat Fordham 75-74 and San Jose State scraped by Loyola of Los Angeles 53-51 to complete first-round action in the West Coast Athletic Conference invitational.

Cleveland pitcher Jim Perry allowed the most American League home runs in 1960. He gave up 35. Sherman Lollar of the Chicago White Sox led American League catchers in fielding last season. He made only three errors.

New Air Force Secretary Is Man with Experience

WASHINGTON (AP) — Eugene Zuckert, who will be secretary of the Air Force in the new Democratic administration, has a top level background for the job.

He was an assistant to the first man to hold that post, Sen. Stuart Symington, D-Mo.

Zuckert, whose appointment was announced today at Palm Beach, Fla., by President-elect John F. Kennedy, has held a wide variety of government positions. He worked for the Securities and Exchange Commission in 1937 when he was fresh out of Yale Law School, and in 1952 became

a member of the Atomic Energy Commission.

He left the AEC in 1954 and has been a Washington lawyer and management consultant since then.

At 49, Zuckert is stocky and balding.

As a schoolboy he attended the Salisbury, Conn. preparatory school where his roommate was G. Mennen Williams, retiring governor of Michigan who has been named by Kennedy to be assistant secretary of state.

At Yale Law School, Zuckert went through an experimental course proposed by William O. Douglas, now a member of the Supreme Court, which combined instruction at Yale with courses at the Harvard graduate school of business administration.

After serving with the Securities and Exchange Commission for three years, Zuckert in 1940 returned to the Harvard institution as an instructor, later becoming an assistant professor and assistant dean.

During the same years, 1940-44, Zuckert was a consultant to the then Army Air Force and taught at a statistical school for officers at Harvard.

Zuckert went to the office of chief of naval operations in Washington in 1944, working on a Navy inventory control plan with the rank of lieutenant, junior grade.

In 1945 he became an assistant to Symington, who then was head of the Surplus Property Administration.

When the Air Force was created as a separate force in 1947, Symington became its first civilian head. He brought Zuckert with him as an assistant secretary.

Zuckert developed a comptroller system in the Air Force, the first of the three services to have one. Later this innovation was enacted into law for all three as a result of Hoover Commission recommendations.

He was named to the Atomic Energy Commission in 1952 by President Harry S. Truman.

Zuckert has been described as friendly but quiet and self-effacing. His motto is "be objective." Like Kennedy, he enjoys golf.

Zuckert has been married twice and has three children.

Restaurant Owners

Must Purchase

Operation License

All restaurant, cafe and tavern owners or operators must purchase their new Food Service Operation License before January 1, R. T. Blaney, city sanitarian said today.

Section 3732.03 of the Ohio Revised Code states that, "on or before the first day of January of each year, every person, firm or corporation conducting a food service operation in this state shall procure a license."

The Food Operation License may be obtained at the local Health Department.

Body of Former Mayor

Found in His Auto

CLEVELAND (AP)—The body of James D. Shepherd, 48, former mayor and councilman of suburban Seven Hills, was found in his car parked inside a garage in Brookpark Tuesday afternoon.

Sgt. Norman C. Simmonds of Brookpark police said a note was beside the body.

For the last two years Shepherd had been a real estate salesman. He resided in Parma.

Scientists have learned much about the electric eel's anatomy and power potential, but they still know almost nothing about how it produces electricity in living tissue.

New Jet Fuel Causes Debate

**'JP4' Is Labeled
Highly Explosive**

LONDON (AP) — The world's big airline companies buzzed today over an argument by two British officials about a new jet fuel one of them says is dangerously explosive.

The new fuel, called JP4, is a mixture of gasoline and kerosene, instead of just kerosene alone. Many airlines now use it, but an airline executive in New York said no domestic airline he knows of uses JP4 in normal operations in the United States.

The argument came to light through Lord Brabazon, chairman of the British Air Registration Board and an aviation expert decorated by the queen.

He published in the "Listener," British Broadcasting Corp. weekly organ, a series of letters between himself and Sir William Hildred, director-general of International Air Transport Association. The IATA represents the major airlines.

Brabazon is critical of JP4 and demonstrated its explosiveness recently on a television program. He repeated his argument against its use in correspondence with Hildred.

Hildred said the television demonstration was "harmful to the worldwide airline industry." He wrote Brabazon and accused him of putting dangerous statements before "emotional millions."

Brabazon said no group of experts could dispute his claim that JP4 flashes quickly into flame while kerosene does not. No planes using the fuel have been known to crash and Brabazon would not cite any cases.

Spokesmen for the airline industry said the fuel was adopted after stringent testing and is technically superior.

Big Transit Bus Rans

Into Cleveland Store

CLEVELAND (AP)—A 10-ton Cleveland Transit System bus ran into a clothing store at Woodland Avenue near East 37th Street during Tuesday afternoon rush hour.

Of 50 passengers aboard the Kinsman line trackless trolley, 15 received cuts and bruises.

The bus driver said he swerved to avoid the door of a parked car which swung open as he was passing. The bus skidded 60 feet. The injured, mostly women were treated at St. Vincent Hospital.

Ex-Richland County

Prosecutor Is Dead

MANSFIELD, Ohio (AP)—Allen Beach came to Richland County prosecutor and a 25-year member of the county Democratic executive committee, will be buried Thursday at Mount Vernon, his birthplace. Funeral services for Beach, who died Monday night in People's Hospital, will be at 1 p. m. Thursday.

Beach came to Richland County as a boy, was elected clerk of courts in 1896, and served in that post seven years. He later was county prosecutor for two terms, and for many years was county law librarian. He headed the Richland County Democratic Executive Committee for 15 years and was a delegate to the Democratic national convention in Denver which nominated William Jennings Bryan for president.
